

Michael Kragh

Denmark | contact@example.com | github.com/codemikemike

Profile

Datatatiker student at UCL in Odense focused on backend development, architecture, APIs, databases and maintainable software systems.

Strong interest in Clean Architecture, CI/CD, testing, cybersecurity, deployment workflows and scalable backend solutions using modern .NET technologies.

Education

UCL University College, AP Degree in Computer Science in Datamatiker

Aug 2024 – present

- C#
- ASP.NET Core
- Databases
- APIs
- System Architecture
- Testing & Deployment

Aalborg University Admission Courses, Supplementary Courses in Engineering Preparation

- Mathematics
- Technical subjects
- Engineering preparation

Experience

Group Leader, Danish Engineer Regiment – Skive

- Leadership and responsibility
- Planning and coordination
- Structured work under pressure
- Team management

Volunteer / Co-Founder, Coding Pirates Vrå

- Helped establish local programming community
- Technology and coding activities for children
- Digital creativity and learning

Projects

Slottets-Drifftavlen

2026

- Blazor and ASP.NET Core semester project
- Clean Architecture and repository pattern
- Docker, CI/CD and MySQL
- Backend-focused architecture

Floozys Hotel

2025

- WPF + MVVM hotel management system
- SQL Server and Entity Framework
- 269 unit tests using MSTest and Moq

Developer Portfolio

2026

- GitHub Pages portfolio
- Automated PDF generation
- GitHub Actions workflows
- HTML/CSS frontend architecture

Skills

Backend: C#, .NET, ASP.NET Core, REST APIs, Blazor

Database: SQL Server, MySQL, Entity Framework, Dapper

DevOps: Docker, GitHub Actions, CI/CD, Git

Architecture: Clean Architecture, Repository Pattern, SOLID, Testing

Certificates

- More than 50 completed courses, labs and certifications
- Cybersecurity and Capture The Flag learning
- Continuous self-driven backend and infrastructure learning
